

League 42 Ledger

League 42 Takes Baseball Indoors This Fall

Having an indoor baseball facility is nice. Having one of the best in the city of Wichita is even nicer.

And we're going to be using it hot and heavy starting in October and through the rest of the fall and winter.

We begin indoor baseball instruction for at least 72 League 42 players on October 6. There will be nine sessions per month, two per night, lasting 75 minutes each. These sessions include instruction in pitching, hitting, fielding, and baserunning and attempt to teach the finer points of the great game of baseball.

There are 12 players in each session, so 24 players per month. And they'll be getting lots of baseball experience from three talented and dedicated instructors.

** Meghan Pontius has been coaching in League 42 since 2022. Her team is the Warriors, who finished second in the Dodger Division playoffs last season and she will be coaching a team in the 13-14 Veteran Division in 2027.*

** Sterling Allen played in the Detroit Tigers organization as a 20-year-old in 1973, then played several seasons of Independent League baseball. He has been a strong supporter of League 42 and is a past board member. He also coached in League 42 from 2017-24, leading teams in four different age groups.*

** Jordan Doss is a new addition to our instruction crew. Jordan played high school baseball and was a pitcher for Wichita North High. He went on to play at Pratt Community College, and has experience coaching in club baseball.*

Our indoor facility provides tremendous opportunities for our players to continue to gain knowledge and ability. When it's cold in the fall and winter, our players will be indoors working on their game. And the results of that work will be obvious.
